Star Fit[®]

High Performance High Precision High Quality

FEATURES

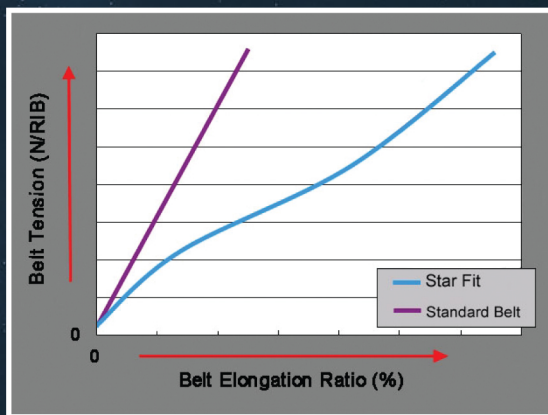

- Controlled “Stretch” Feature eliminates belt tensioner
- Cord specification enhancement
- Rib rubber with special design fiber running surface
- Modulus Index equal to 1/3 of standard high modulus designs
- Extended Belt Life

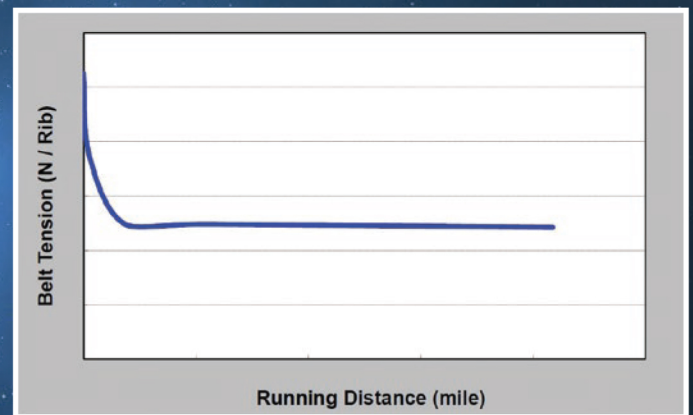

BENEFITS

- Strong durable tension strength for long life
- Low noise and high grip friction surface for accessory drive applications
- Maintains appropriate belt tension through belt life without the use of a tensioner for applications originally designed without a tensioner.

BELT TENSION COMPARISON

BELT TENSION CHANGE

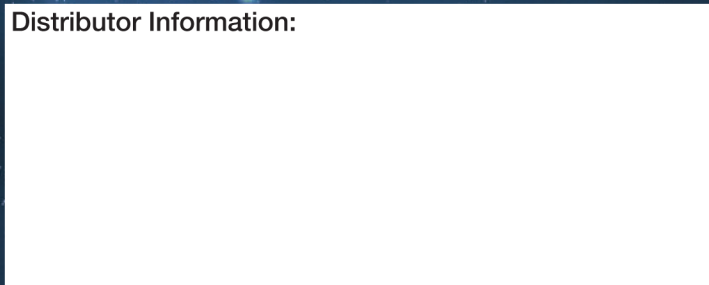

- * Customized Installation Tool Kits available for most applications
- * Detailed multi-language installation instructions (English & Spanish)
